About AISSMS's POLYTECHNIC

All India Shri Shivaji Memorial Society, established in 1921 by Rajarshi Chhatrapati Shahu Maharaj, Kolhapur, is serving the noble cause of education. Since its establishment, AISSMS is catering the various skills of the students in its Military School, Day School, College of Engineering, Pharmacy and Hotel Management. All India Shri Shivaji Memorial Society's Polytechnic was established by AISSMS in July 1994 under the co-education system. The institute is affiliated to Maharashtra State board of Technical Education, Mumbai and approved by AICTE, New Delhi as well as Government of Maharashtra. Presently AISSMS's Polytechnic runs diploma courses in Mechanical, Automobile, Civil, Computer, Electronics and Telecommunication, Instrumentation engineering and Information Technology. The Institute is centrally located in the heart of Pune City about 1 km from Pune and Shivaji Nagar Railway Stations.

The Institute has highly qualified and experienced faculty on its roll. All laboratories in all the branches and library are well equipped. The Institute provides unlimited broadband internet facility to the students. Besides national journals, the international journals are made available to the students and the faculties. The institute has an outstanding tradition of excellent result. Every batch of 20 students has a counsellor appointed to solve student problem. The Institute has an effective Training and Placement Cell. The institute enhances the teaching learning experience by providing students good resources, contact with industries and academia, employment opportunities and internships. The institute has good infrastructure facilities including ample parking and huge sport ground.

PRINCIPAL'S MESSAGES

It gives me immense pleasure to introduce this newsletter.

It is my conviction that only technical education can change our country into a developed, prosperous and a better nation. Our ex-president Dr. A.P.J. Abdul Kalam has predicted that India will become a developed nation in 2020. For this, he has set a goal of 2020.

I think if we want to achieve this, technical institutions and education should be given priority so that we can develop our own technology in every field which will lead the world. Though India has second largest population in the world, it is observed that we don't have enough technicians and scientists who will show the Country a glimpse of development. Only technical education has the ability to eradicate poverty and unemployment, the two biggest enemies of our country.

Here, at A.I.S.S.M.S's Polytechnic, we strive to impart quality technical education to our students so that they can both carve out a better future for them and become the pillars of Indian Industry. In A.I.S.S.M.S's Polytechnic, we don't just teach textbooks, we also help students to inculcate high moral values and principles. We encourage them to develop their energies productively and in right direction. In college we teach them how to interact in society, behave with others and become better human beings. My best wishesh to all the students for bright career.

"Service to the society through quality Education by Producing "An Engineer in Totality."

Entrepreneurship Awareness Camp

An education system that highlights the importance of Entrepreneurship should be created, former President A P J Abdul Kalam said on Monday, March 12 2013. "In the present context, the education system has to be designed to see that we generate a large number of employment generators and not employment seekers," Kalam said, addressing students on the occasion of IIT-Bombay's 54th Foundation Day. To complete this statement AISSMS's Polytechnic is going to arrange Entrepreneurship Awareness Camp in collaboration with Devine Cooperation, Pune. This EAC program is sponsored by Department of Science and Technology, Gov. of India. Like every year, in this academic year, we have conducted four EAC programs for final year students.

EDP Program by DST

Personality Development Programs

Personality development is a full-fledged course as people have started understanding the importance of this is the true sense. With the help of good training a child or an adult can learn communication skills, different subjects, driving or computer operating. Similarly, training in personality development enhances the general as well as unique traits of a person that is required for differentiating a person from another. A teacher of personality development helps a person to get positive thought pattern, gain confidence, improve behavior, learn better communication and develop a healthy physique.

With this motive AISSMS's Polytechnic is tie up with the Institute of Holistic Healing India, Pune and conducted various personality development programs for as well as for faculty.

These programs cover the various aspect of personality development like as: Knowing your personality, Communication skill, Time Management, Aptitude Training, Interview Technique, Resume Writing and much more for students.

For the faculty motivation we have conducted personality development program on Team Building, Leadership, and Time Management for Teaching and Non-teaching staff.

Live Life Stressfree – Counseling

Counseling plays an important role for students and faculties in bringing out the best in them. Through counselling, they are given advice on how to deal with emotional conflict and personal problems so that they can enjoy their duties and responsibilities. For this, AISSM Society has arranged a counseling facility to all the staff of our institute.

In AISSMS's Polytechnic students are given proper counseling on how to deal with personal problems which can impact their studies. Through such sessions, the students will be able to develop certain problem-solving skills which help them deal with particular issues surrounding their lives. In counseling, we focus on stay away from addictions

The staffs of our institute are given proper counseling for doing their work effectively and to live life stress free. These sessions also help staff to live in peace and harmony with others at the institute.

Training & Placement Cell

The primary goal of the polytechnic institution is to provide a capable manpower to the industry at supervisory level. Our Training and Placement Cell is actively involved in coordination with all the departments to build the necessary capabilities in our students to make them employable

Training and Placement Cell organizes expert lectures on various technical topics from industry experts to make our students aware about latest technologies, trends, processes and work culture. To give them more practical insights, Training and Placement Cell takes initiative to organize industrial visits. In order to boost their core technical skills, the Training and Placement Cell organizes technical quiz, mock interviews etc. The Training and Placement Cell has initiated programs to enhance the soft skills, under which the special soft skill training sessions, seminars and workshops are also organized.

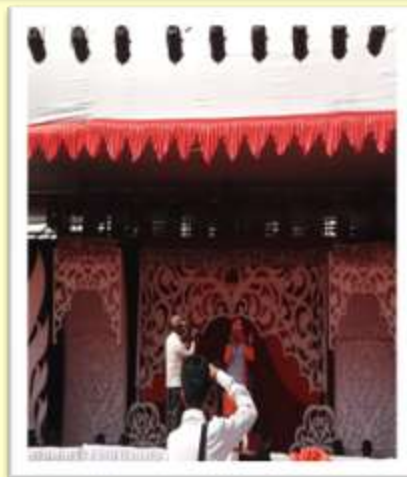

Training and Placement Cell takes enormous efforts in approaching various industries from diverse sectors and interacting with industry-officials continually. And discussing with them various important aspects such as students' industrial visits, expert lectures, sponsoring of projects, vocational training, apart from inviting them for campus placement drives.

This academic year, AISSMS's Polytechnic organized campus interview of KSB Pumps on 12 February, 2018.
