AUTOMOBILE ENGINEERING DEPARTMENT

NEWSLETTER (FEB. 2018)

VISION:

“To achieve excellence in all aspects of Automobile Engineering.”

Mission:

- Comprehensive development of student by using state of art infrastructural facilities.
- Development of an engineering mindset within the students.
- Continuous enhancement of skill sets of students and faculty through Industry –Institute interaction.
- Imparting latest technical knowledge to the students.

It is my conviction that only technical education can change our country into a developed, prosperous and a better nation. Our ex-president Dr. A.P.J. Abdul Kalam has predicted that India will become a developed nation in 2020. For this, he has set a goal of 2020. I think if we want to achieve this, technical institutions and education should be given priority so that we can develop our own technology in every field which will lead the world. Though India has second largest population in the world, it is observed that we don't have enough technicians and scientists who will show the Country a glimpse of development. Only technical education has the ability to eradicate poverty and unemployment, the two biggest enemies of our country.

I welcome you all to the Department of Automobile Engineering .It was started in the year 2017. Department has well equipped laboratories like Automobile Engineering,, AE, CAD, ,Fluid Mechanics, , Metrology and Quality control, Theory of Machines etc. Department is having advanced Workshop with all types of machines. For overall development of the students, Guest Lectures, Technical workshops, Soft Skill training and industrial visits are arranged.

EXTRA CURRICULAR ACTIVITIES

We have celebrated Shiv Jayanti on 19/02/18

Guest lecture on energy audit on 12/02/18

INDUSTRIAL VISITS

Visit to Venkatesh Sugar
Factory, Shikrapur, Dist. Pune, on 04/02/2018

Visit to J.M.Press Shop, Bhosari, Pune, on 23/02/2018
