

Vision

Create competent mechanical engineers with good humanities, leadership and entrepreneurship qualities for Global Development .

Mission

M1: To impart quality education through demanding academic programme.

M2: To increase employability through Industrial interaction and Entrepreneurship Development.

M3: To enhance technical skills and social awareness.

Department of Mechanical Engineering

Dear Students,

I welcome you all on the behalf of AISSMS's Polytechnic, Pune.

The Mechanical Engineering Department was established in 1994. The Department has an intake of 120 students. Mechanical Engineering is one of the major streams in the engineering profession and its principles are involved in the design, development, production, and construction of nearly all of the physical devices and systems.
