Vision:

“To confer technical education in IT field to generate value based output.”

Mission:

M1: Enrich intellectual potential of students with technical knowledge.

M2: Imbibe social awareness in students to serve the society.

About Information Technology Department

We started our journey in the year of 2001.

Innovation with intellectual mind is essential in order to become a talented IT professional. The world of education is changing as the modern world continues to grow. In this modern day and age, information technology plays a big role. Information Technology is one of the most promising and rewarding field. Information technology is the study and use of systems for storing, retrieving, and sending information. This can include software, hardware, applications, and so much more. Business, education, and even healthcare have all been redesigned, thanks to information technology. Due to the importance and reputation of IT, the present age is sometimes referred to as information technology age.

HOD Information Technology Department

It gives me immense pleasure to lead the department of Information Technology. An Information Technology degree is one of the most aspired degrees today for both undergraduate and post graduate students. Information Technology can be used widely in all the sectors of the economy and even in the education sector so it has become the most preferred career option all over the world. It offers a bright future for the innovative and growth oriented students. One of our main objectives is to overcome the gap between theories and practical that will help them to become career-oriented and to work at global level. The motto of our department is to provide quality education. Our Academic Staffs are all well qualified in the relevant areas. Academic standards, practical work, self-discipline and responsibility are the some key parameters as far as the Department is concerned. I wish all the Students and Faculties a great academic career.

Counseling plays an important role important for students and faculties in bringing out the best in them. Through counseling, they are given advice on how to deal with emotional conflict and personal problems so that they can enjoy their duties and responsibilities. For this, AISSM Society has arranged a counseling facility to all the staff of our institute.

In AISSMS's Polytechnic students are given proper counseling on how to deal with personal problems which can impact their studies. Through such sessions, the students will be able to develop certain problem-solving skills which help them deal with particular issues surrounding their lives. In counseling, we focus on stay away from addictions

The staffs of our institute are given proper counseling for doing their work effectively and to live life stress free. These sessions also help staff to live in peace and harmony with others at the institute.

Industry Experts Lectures

One of the most important benefits derived from having expert lectures is the enhancement of the student's educational experience. Students attend these lectures for current trends and challenges of the industry. Students are encouraged to attend and interact with various experts in engineering and allied fields. Our department organized many industry experts lectures some of them.

MOU's With Industries

The purpose of MoU is to have mutual intentions to jointly work on projects required for industries and research needs, with learned faculty of good industrial experience and promising students, jointly agree to exchange their expertise for mutual benefit and growth, on the areas specified below: Industrial Visits, industry expert knowledge to students and implant training for students.

Live Course Orientation Program of MSBTE

Curriculum Implementation And Assessment Norms (CIAAN-2017): - In order to ensure uniform curriculum implementation throughout the state, MSBTE has prepared the CIAAN-2017 document, which will provide guidelines to all teachers about methodology of implementing the new curricula, undertake internal as well as external assessment for each course of each programme.

Extra curricular Activity

Getting involved in activities outside of college can help these students meet new people with whom they share interests and improve their social skills as a result. Extracurricular activities also help students to expand their network, which is beneficial for finding career opportunities after graduation.
