Vision

To enrich intellectual potential by imparting technical knowledge and skills to become an IT professional.

Mission

M1: To confer the technical education and skills required for IT field.

M2: To imbibe social awareness in students to serve the society.

About Information Technology Department

We started our journey in the year of 2001.

Innovation with intellectual mind is essential in order to become a talented IT professional. The world of education is changing as the modern world continues to grow. In this modern day and age, information technology plays a big role. Information Technology is one of the most promising and rewarding field. Information technology is the study and use of systems for storing, retrieving, and sending information. This can include software, hardware, applications, and so much more. Business, education, and even healthcare have all been redesigned, thanks to information technology. Due to the importance and reputation of IT, the present age is sometimes referred to as information technology age.

Mrs.A.S.Khandagale

ME(Computer)

I/C HOD Information Technology Department

It gives me immense pleasure to lead the department of Information Technology. An Information Technology degree is one of the most aspired degrees today for both undergraduate and post graduate students.Information Technology can be used widely in all the sectors of the economy and even in the education sector so it has become the most preferred career option all over the world. It offers a bright future for the innovative and growth oriented students.One of our main objectives is to overcome the gap between theories and practical that will help them to become career-oriented and to work at global level.The motto of our department is to provide quality education. Our Academic Staffs are all well qualified in the relevant areas. Academic standards, practical work, self-discipline and responsibility are the some key parameters as far as the Department is concerned.I wish all the Students and Faculties a great academic career.

Induction Program

Student Induction Program engages with the new students as soon as they come into the institution; before regular classes start. At the start of the induction, the incumbents learn about the institutional policies, processes, practices, culture and values, and their mentor groups are formed. This program was conducted by HOD on date 24.08.2023.

Teacher's Day Celebration

Teachers' Day is celebrated annually on September 5 to mark the birthday of the country's former President, scholar, philosopher and Bharat Ratna awardee, Dr Sarvepalli Radhakrishnan.Our department TY & SY students celebrated teacher's day on date 08/09/2023, the program was supposed to be conducted on 5th September, but due to class tests, the celebration was postponed to 8th September. HOD Mrs. Khandagle ma'am expressed their thoughts about the celebration and well organized program, and class teacher appreciated the hard work of students.

Industrial Visits

Pune Municipal Corporation's Indradhanushya Environment Education Center and Rajiv Gandhi Zoological Park together had organised one day workshop to celebrate ' International Day of Clean Air for Blue Skies.' On date 11/9/2023 ,43 students of Information Technology and teachers from

AISSMS Polytechnic participated in the workshop. Students made aware about "Air Pollution: Mitigation Measures by PMC" with help of presentation along with documentary film screening. All participants enthusiastically participated in the Signature Campaign and Selfi Corner was the added attraction of the event. Online Quiz based on the Air Pollution was also conducted on the occasion of Clean Air Day .

Workshop for Student

Cyber security training can teach people about common online hazards that target personal data, like social engineering, identity theft, and phishing schemes. People can identify and stay away from potential frauds, dubious websites, and dangerous emails by being aware of these strategies. Our Department Organize Cyber Security Workshop For Student On date 23.10.2023 .

Workshop for Staff

AI in employee training refers to enhancing the learning process via the use of intelligent technologies such as machine learning and natural language processing. These technologies enable the creation of adaptive and personalized training programs, taking learning to a whole new level.
Our Department Organized This Workshop For Staff Online Mode on Date 30 & 31 October 2023.
