Vision

To enrich intellectual potential by imparting technical knowledge and skills to become an IT professional.

Mission

M1: To confer the technical education and skills required for IT field.

M2: To imbibe social awareness in students to serve the society.

About Information Technology Department

We started our journey in the year of 2001.

Innovation with intellectual mind is essential in order to become a talented IT professional. The world of education is changing as the modern world continues to grow. In this modern day and age, information technology plays a big role. Information Technology is one of the most promising and rewarding field. Information technology is the study and use of systems for storing, retrieving, and sending information. This can include software, hardware, applications, and so much more. Business, education, and even healthcare have all been redesigned, thanks to information technology. Due to the importance and reputation of IT, the present age is sometimes referred to as information technology age.

I/C HOD Information Technology Department

It gives me immense pleasure to lead the department of Information Technology. An Information Technology degree is one of the most aspired degrees today for both undergraduate and post graduate students. Information Technology can be used widely in all the sectors of the economy and even in the education sector so it has become the most preferred career option all over the world. It offers a bright future for the innovative and growth oriented students. One of our main objectives is to overcome the gap between theories and practical that will help them to become career-oriented and to work at global level. The motto of our department is to provide quality education. Our Academic Staffs are all well qualified in the relevant areas. Academic standards, practical work, self-discipline and responsibility are the some key parameters as far as the Department is concerned. I wish all the Students and Faculties a great academic career.

One Week Faculty Development Program on Generative AI – 4th to 9th August 2025

The **Information Technology Department of AISSMS Polytechnic** organized a **One Week Faculty Development Programme (FDP) on Generative AI** from **4th to 9th August 2025**. The programme was sponsored by the **AICTE Training and Learning (ATAL) Academy**.

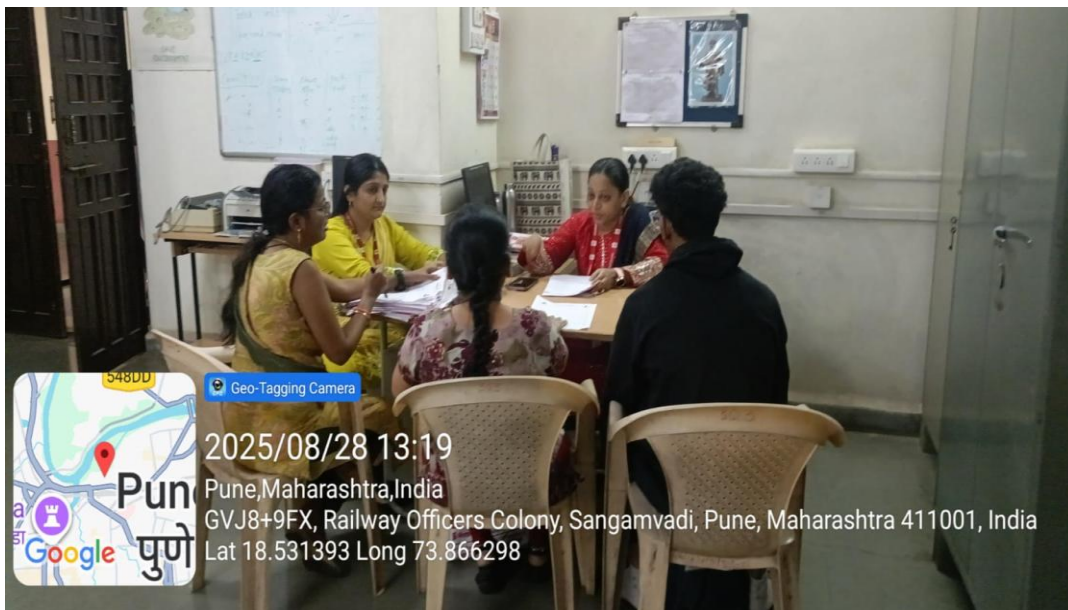

The FDP focused on introducing faculty members to the concepts of **Generative Artificial Intelligence** and its applications in teaching, learning, and research. Experts shared knowledge on modern AI tools, techniques, and real-world use cases, helping participants understand how AI can enhance academic and professional practices.

The program provided valuable learning opportunities for faculty members and helped them stay updated with emerging technologies. Overall, the FDP was informative and successful, contributing to continuous professional development and academic excellence.

Parents - Teacher Meet (Second Year IF) - 28th August 2025

The Department arranged a Parents–Teacher Meet for Second Year students on 28th August 2025. The program started with a welcome note, followed by sharing details about academics, attendance, and upcoming activities. Parents got the chance to meet teachers personally and discuss their child’s progress. Useful suggestions were also shared, making the meeting helpful for both parents and teachers. The event built a better understanding and cooperation between parents and faculty.

Industrial Visit – PHN Technology, Viman Nagar (SYIF) – 21st August 2025

The **Second Year Information Technology (SYIF) students** visited **PHN Technology, Viman Nagar, Pune** on **21st August 2025** as part of their industrial exposure program. During the visit, students learned about the latest software development practices, IT services, and career opportunities in the industry. Experts at PHN Technology guided students on practical aspects of working in the IT field and encouraged them to upgrade their technical skills. The visit was very informative and gave students a clear idea about how classroom learning connects with real-world applications.

Teachers' Day Celebration - 4th September 2025

The **Information Technology Department** students of **Second Year and Third Year** organized a heartfelt **Teachers' Day Celebration** on **4th September 2025**. Since 5th September was a holiday, the program was held a day earlier. Students expressed their gratitude towards the teachers through speeches, cultural performances, and fun activities. The celebration created a joyful atmosphere and highlighted the strong bond between teachers and students.

Engineer's Day Celebration - 17th September 2025

The Information Technology Department arranged a special session on “**AI & Its Application**” for the Second Year and Third Year students on the occasion of **Engineer's Day**. The expert talk was delivered by **Dr. D. S. Zingade**, Assistant Professor, Department of AI & DS, AISSMS IOIT, Pune.

Students learned about the various applications of Artificial Intelligence in real-life fields such as healthcare, transportation, education, and

industry. The session helped students understand how AI is shaping the future and inspired them to explore emerging technologies.

The event created an educational and motivating atmosphere and added great value to the Engineer's Day celebration.

Soft Skills Program – 25th September 2025

The Information Technology Department conducted a **Soft Skills Program** for the **Second Year IF students** on **25th September 2025**. The session focused on improving important skills like communication, teamwork, confidence building, and time management.

Students took part in simple activities, group discussions, and small tasks that helped them understand how soft skills are useful in everyday life and during job interviews. The program helped students communicate better and work well with others.
