Vision

To enrich intellectual potential by imparting technical knowledge and skills to become an IT professional.

Mission

M1: To confer the technical education and skills required for IT field.

M2: To imbibe social awareness in students to serve the society.

About Information Technology Department

We started our journey in the year of 2001.

Innovation with intellectual mind is essential in order to become a talented IT professional. The world of education is changing as the modern world continues to grow. In this modern day and age, information technology plays a big role. Information Technology is one of the most promising and rewarding field. Information technology is the study and use of systems for storing, retrieving, and sending information. This can include software, hardware, applications, and so much more. Business, education, and even healthcare have all been redesigned, thanks to information technology. Due to the importance and reputation of IT, the present age is sometimes referred to as information technology age.

Mrs. A. S. Khandagale

ME (Computer)

I/C HOD Information Technology Department

It gives me immense pleasure to lead the department of Information Technology. An Information Technology degree is one of the most aspired degrees today for both undergraduate and post graduate students. Information Technology can be used widely in all the sectors of the economy and even in the education sector so it has become the most preferred career option all over the world. It offers a bright future for the innovative and growth-oriented students. One of our main objectives is to overcome the gap between theories and practical that will help them to become career-oriented and to work at global level. The motto of our department is to provide quality education. Our Academic Staffs are all well qualified in the relevant areas. Academic standards, practical work, self-discipline and responsibility are some key parameters as far as the Department is concerned. I wish all the Students and Faculties a great academic career.

Industrial Visit – Krushik Expo, Baramati (SYIF) – 23rd January 2026

The Second Year Information Technology (SYIF) students visited Krushik Expo, Baramati on 23rd January 2026 as part of their industrial visit. During the visit, students got to see different modern farming technologies, tools, and new ideas used in agriculture. They understood how technology helps farmers improve their work and increase productivity. The visit was very interesting and informative, and it helped students connect their classroom learning with real-world applications.

Entrepreneurship Development Workshop (TY-IF)

An Entrepreneurship Development Workshop was conducted for Third Year Information Technology (TY-IF) students. The session covered real-life examples of successful entrepreneurs, helping students understand practical aspects of starting and managing a business. Students were also given information about the StartUp India initiative and the support it provides to new startups. The workshop was informative and encouraged students to think about entrepreneurship as a future career option.

Blind Coding Competition (C Programming) – 20th February 2026

The Information Technology Department of AISSMS Polytechnic organized a “Blind Coding Competition” for students on 20th February 2026. In this competition, participants wrote C programs without viewing any errors on the screen, which tested their logical thinking, and coding skills. Students enthusiastically participated in the event and experienced a different approach to problem-solving and programming.

The competition was conducted under the guidance of faculty coordinators and student representatives, who ensured smooth execution of the activity. Overall, the activity was highly interactive and provided students with a valuable learning experience.

Mehndi Competition – 20th February 2026

The Information Technology Department also organized a Mehndi Competition on 20th February 2026. Students actively participated and showcased their creativity through beautiful and intricate mehndi designs. The event was conducted under the guidance of faculty coordinators. It provided a platform for students to express their artistic skills and creativity. The competition was well-organized and created an enjoyable and vibrant atmosphere among the participants.

Workshop on “Thinking in AI: AI for Real-World Problems” (SY-IF) – 23rd February 2026

The Second Year Information Technology (SY-IF) students attended a workshop on “Thinking in AI: AI for Real-World Problems” on 23rd February 2026. The session focused on understanding how real-world problems can be solved using Artificial Intelligence. Students learned how to select the appropriate AI techniques and where simple logic can be more effective than AI.

The workshop was informative and helped students gain practical insights into the application of AI in solving everyday problems.

Industrial Visit – Sumago Infotech (SYIF) – 6th March 2026

The Second Year Information Technology (SYIF) students visited Sumago Infotech on 6th March 2026 as part of their industrial visit. During the visit, students gained knowledge about software development processes, IT services, and real-world industry practices. Experts guided the students on practical aspects of working in the IT field and shared insights about current technologies and career opportunities. The visit was informative and helped students understand how classroom concepts are applied in the industry.

Women’s Day Celebration – Yoga Lecture

The Information Technology Department Celebrated Women’s Day by organizing a special lecture on Yoga. The session highlighted the importance of yoga for physical health, mental well-being, and stress management. Students learned simple yoga practices and the benefits of maintaining a healthy lifestyle. The session was informative and refreshing, promoting overall wellness among students.

Guest Lecture on Web Development (SYIF) – 17th March 2026

A guest lecture was conducted for Second Year Information Technology (SYIF) students on 17th March 2026. The session was based on “From Frontend to Backend: Complete Web Development Workflow.” Students learned about the complete process of web development, including frontend design, backend development, and how both are connected. The lecture was informative and helped students understand real-world web development practices, enhancing their technical knowledge and practical understanding.

Industrial Visit – Khodad (TYIF)

The Third Year Information Technology (TYIF) students visited Khodad, Pune district, as part of their industrial visit. Khodad is known for the Giant Metrewave Radio Telescope (GMRT), the world’s largest telescope operating at low radio frequencies, managed by the National Centre for Radio Astrophysics (NCRA).

During the visit, students learned about radio astronomy, working of large telescopes, and how signals from space are collected and analyzed. The visit was very informative and gave students exposure to advanced scientific technology and real-world applications.
