CIVIL ENGINEERING DEPARTMENT

Celebration of Open Day In Civil Engineering Department

Civil Engineering Department had Celebrated Open day on 20th February 2026. On occasion of Open day various competitions were organized by Civil Engineering Department like Quiz, Drawing & Musical Chairs.

PRINCIPAL'S MESSAGE

**Principal
Mr.S.K.Giram**

It gives me immense pleasure to invite aspiring students who are keen to make a best career in technical field as a good technocrat. The diploma holders play very important role in industrial and economic developments of the country. They develop and master specialised skill in the chosen areas and provide much needed supports in any engineering establishments. Also the students having diploma in engineering provides support services in various other sectors of economy, including service sector. AISSM Society's Polytechnic is among the top reputed technical institutes imparting high quality technical education. The evolution of the institute over the past two and half decades

has witnessed strong blend of state-of-the-art infrastructure and intricately intertwined human resource committed to providing professional education with trust on creativity and innovation. Here at AISSM Society's Polytechnic, we are imparting skills and knowledge to our students in the best possible manner to make them dream about big and fulfill the same. It is rightly said that a dream becomes a goal when the action is taken towards its fulfilment, and we are committed to providing optimistic, independent, compassionate, life-long learners and leaders who will bring glory to the institute, state and the nation. We at AISSM Society's Polytechnic take every

care to fulfil the hopes and aspirations of all students by providing them the best physical and academic infrastructure needed to make them competent technical professionals. Our outstanding faculty adds value to our best endeavor to provide technical knowledge to our students in the interest of all the stakeholders in the country. I take this opportunity to acknowledge the extreme hard work put in by our dedicated staff, by working round-the-clock to keep our college at the zenith of success. I Welcome you all to join our institute and make a best career in life. *"The tradition of excellence is ours, the choice is yours."*

*AISSMS's
Polytechnic is
affiliated to Maha-
rashtra State
Board of Technical
Education, Mumbai
and Recognize by
A. I. C. T. E.
& Gov. of
Maharashtra*

HOD DESK

Department of Civil Engineering is one of the latest branches of Engineering in modern era of technology. It is rapidly growing field with a wide range of job opportunities.

The Technical Education Department aims towards making available the trained and technically qualified hands to serve the industry & society. We are working hard to improve upon the quality of education.

The department organizes Workshops, Expert Lectures, Seminars, Industrial visits and extra-curricular activities from time to time to provide our students and faculties to interact with their peers from across the country. Our students are trained to develop a balanced personality and will prove to be an invaluable asset to an organization

**HOD
MR. S.G.Anturkar**

EDITOR'S MESSAGE

Main objective of this newsletter to be published as all activities conducted by our department are to be summarized here on this platform. It is a tool to short way - Communication, long-way - Reader, technical institutions delivering information to our students and parents. This will help to all students as well as parents to know about the various activities, workshops, competitions, organised by our department and keep them updated.

Our department published departmental newsletter half yearly, I hope this newsletter help all the readers to update our activities throughout the semester.

We are thankful to our HOD and Principal to give this opportunity. We are also thank to all staff for cooperating us to prepare newsletter. Also thanks all those who helped us directly and indirectly.

**Mr. B. H.
Chafekar**

"CENTER OF ACADEMIC EXCELLENCE"

“Science Day celebration-2026”

On the occasion of National Science Day, the second-year civil engineering students visited the Survey of India to gain practical knowledge about modern surveying techniques and mapping systems. During the visit, students observed various surveying instruments such as Total Station, GPS equipment, digital levels, and map-making technologies used for topographical and geodetic surveys. The officials explained the role of surveying in infrastructure development, land measurement, disaster management, and urban planning. Students also learned about the history and functions of the Survey of India and the importance of accurate data collection in engineering projects. The visit enhanced the students' technical understanding and provided valuable exposure to real-world surveying practices and scientific advancements.

Industrial visit to the students to Yerwada transfer station. At Yerwada transfer station Mr. Vishal Sable shared all working related information with students.

QUIZ COMPETITION

On occasion of Open day 20th February 2026 Civil Engineering department organized Quiz competition for all students under IEI student chapter. About 14 students from all department participated in this competition. To motivate the students to develop their recalling, thinking ability is main purpose of this competition. Mr. Tanmay Vishwakarma from FYCE and Ms.Mugdha Karad from FYCE secured first rank this competition.

First winner in Essay Competition

Distribution of Certificates

TECHNICAL VISIT- To Siddhivinayak Groups, Commercial project at Kondhwa, Pune

Civil Engineering Department organized a Technical Site Visit to a Construction Project Site to provide practical exposure to various construction processes and materials used in building works. It is useful for first year students for the course of Building construction Materials. Students observed actual on-site activities such as excavation, reinforcement work, concreting of structural members, and formwork arrangement for beams, slabs, and columns. They also studied different construction materials like cement, steel, aggregates, bricks, ready-mix concrete, as well as finishing materials such as plaster, tiles, and paint. In addition, students were introduced to building communication systems including electrical wiring, plumbing lines, and fire safety installations.

“CENTER OF ACADEMIC EXCELLENCE”

Industrial Visit to Solid Waste Management plant

For TYCE (VI Semester) students are having elective subject “Solid Waste Management” in their curriculum designed by MSBTE. In this subject, it is mandatory that students should have exposure of SWM knowledge by site visits. They should study operations done at solid waste management plant like collection, segregation, transportation and disposal of waste. At Ghole road SWM unit students got useful information about all above activities, additionally they also learned about working of Biogas plant and generation of Bio-fuel from waste. Mr. Suraj Kasbe sir (In charge of SWM plant) explained students all activities regarding SWM.

SOFT SKILL TRAINING

The Entrepreneurship Development Program with soft skill training for Third Year civil engineering students has been organized in association with Institute of Holistic Healing India Pune. For this program all the staff members are assigned as per scheduled time table of class and as per the instructions given by Respected HOD, Mr. S. G. Anturkar. The department T & P coordinator and Lecturer in civil engineering department Mr. P. V. Kapure has coordinated the program from beginning. This report is generated by ongoing activities during the session & in coordination of all teaching staff of civil engineering department. This program helps students to become successful Entrepreneur, appear for various entrance exams in government jobs, higher studies and achieves our civil engineering department vision & missions.

Social Acitvity

The Tree plantation activity was carried out as a Social Activity by the Civil Engineering Department of AISSMS POLYTECHNIC. The activity was successfully completed under the guidance of Prof. P. V. Kapure, Lecturer in Civil Engineering Department. During this activity various plants like **Chikoo Plant, Bilva (Sacred) plant, Hibiscus plant** etc. plantation were done in presence of civil engineering students & staff of AISSMS POLYTECHNIC. From this activity we learn “ Green today, clean tomorrow. "Trees are life's silent guardians. "Plant trees, breathe free." and it is indeed that **“More trees. Better world. Better life”**

Industrial Visit at Parvati water treatment plant

Civil Engineering Department organized Technical Industrial visit to Parvati Water Treatment Plant to explain various treatments done on water to make it fit for drinking purpose. It is useful for second year Students for course of Water and waste water engineering. Students saw actually how raw water is taken from khadakwasla dam and various processes like pre chlorination, coagulation, filtration and post chlorination. Staff of Parvati Water Treatment Plant, Mr. Sanjay Raut gave demonstration for process of filtration and post chlorination. Students got knowledge for treatments done on water and it is useful for students for their curriculum
